MARRIED | EMPLOYMENT VISA

HEADLINE:

Sr. IT Engineer with 10 years of expertise in U.A.E & overall 14 years as IT Professional.

PROFESSIONAL SUMMARY:

Experienced Senior IT Engineer with 14+ years managing and optimizing complex IT infrastructures across industrial and office environments. Expert in Windows Server administration, Active Directory, network engineering, and industrial-grade hardware deployment. Proven track record of delivering secure, scalable systems and supporting enterprise applications, with a growing focus on Cloud, AI, and Cybersecurity solutions.

PROFESSIONAL EXPERIENCE

Designation : **Sr. IT Engineer & Asst to Admin Manager.**
Period : From **17th Mar 2016 to present.**
Organization: **MAPCO LLC – An MEP Contracting Co.**

JOB PROFILE:

Network & Infrastructure Management

- Managed and maintained the IT infrastructure supporting 100+ staff and 600 laborers across multiple sites.
- Administered and configured network hardware, including Unifi Dream Machine Pro, Dell SonicWALL router, Cisco switches and Unifi Access Points.
- Oversaw structured cabling projects for site offices and performed advanced troubleshooting to resolve Local Area Network (LAN) issues.
- Deployed NAS systems for backup and user access via mobile/web, managing permissions.
- Installed CCTV systems in warehouses and harsh industrial environments, including high-temperature furnace areas.

System & Server Administration

- Managed Windows Server 2019 environments with Active Directory user, group, permission, and policy administration.
- Oversaw company email domains, employee accounts, and comprehensive software/hardware management for desktops, servers, and office devices.

ACADEMICS:

- ✓ **Bachelor of Engineering** in **Computer Science Engineering, From** Anjuman Institute of Technology & Management, Affiliated to Visvesvaraya Technological University, Belgaum, recognized by AICTE, New Delhi.

PERSONAL STRENGTHS:

- ✓ Strong understanding of Latest Information Technology.
- ✓ Excellent communication skills.
- ✓ Team Player.
- ✓ Leadership Abilities.
- ✓ Adaptability.
- ✓ Project Coordination
- ✓ Able to work well with all levels of Management and staff.
- ✓ Organization.
- ✓ Proactive Learning.

Personal Interests:

- ✓ Reading History.
- ✓ Travelling.
- ✓ Listening to music.
- ✓ Solving Puzzles.
- ✓ Hiking.
- ✓ Badminton.
- ✓ Cricket.

Certifications & Technical Skills:

- ✓ **AI0121EN:** Introduction to Generative AI.
- ✓ **AI0131EN:** Introduction to Prompt Engineering
- ✓ **AI0141EN:** Models and Platforms for Generative AI.
- ✓ **CCNA** (Cisco Certified Network Associate).
- ✓ MCSE course completed.
- ✓ Windows Server 2008, 2019 Active Directory, Configuring.
- ✓ AWS Cloud Technical Essentials.
- ✓ CS50's Introduction to Cybersecurity in Progress.

Core Skills:

- ✓ Active Directory (AD) & Group Policy (GPO) Management.
- ✓ Windows Server Administration (2003, 2008, 2012, 2019).
- ✓ Windows Client OS Administration (7, 8, 10, 11).
- ✓ DNS, DHCP, and File Server Configuration.
- ✓ Router, Switch, and Firewall Management (Cisco, Dell SonicWALL, Unifi).

- Managed the installation, configuration, and repair of software and hardware for all desktops, servers, plotters, photocopiers, and multifunction printers (MFPs).
- Installed and configured access control and web-based time & attendance systems (ZKT Biotime).

Technical Support & Project Coordination

- Delivered remote and onsite technical support, leading complex issue resolution.
- Acted as the ERP implementation coordinator, helping to facilitate the integration of new systems.
- Managed all IT procurement, including the purchasing of hardware components and software licenses.
- Assisted the Operations and Admin Manager with administrative duties, demonstrating operational flexibility and cross-departmental support.

Designation **: System Administrator.**
Period : From **30th Oct 2012 to 12th Nov 2015.**
Organization: **SFJ Technologies Pvt.Ltd, Bangalore, India.**

JOB PROFILE:

System & Network Administration

- Managed office network for 150 users, including Cisco devices and Windows Server 2008 Active Directory.
- Installed, configured, and managed application software on Windows Desktops and Servers, including full administration of SAP B-One Server and Client environments.
- Created and managed Active Directory users, groups, permissions, and policies.

Technical Support & Troubleshooting

- Performed end-to-end network troubleshooting, including resolving LAN and internet connectivity issues, port enabling, and network cable crimping.
- Maintained and troubleshot LAN/internet connectivity, VoIP phones, and biometric systems (eSSL).

Key Accomplishments

- Successfully installed and maintained the SAP B-One Server and Client, ensuring its stability and performance for all users.
- Independently resolved network issues, minimizing downtime and ensuring consistent connectivity.

Designation : **Network Support Engineer.**
Period : From **Feb 2011 to May 2012.**
Organization: **Safas Internetworking Technologies Pvt. Ltd, Bangalore, India.**

JOB PROFILE:

- Installed and configured routers, switches, and firewalls for small to medium networks.
- Managed DNS, DHCP, file servers, VLANs, ACLs, and NAT.
- Installed applications across Windows desktops and servers.

- ✓ LAN/WAN Troubleshooting and Remote Desktop Support.
- ✓ PC & Server Hardware Building, Configuration, and Troubleshooting.
- ✓ Application Software Installation and Repair.
- ✓ VoIP and IP Phone System Administration.
- ✓ CCTV, Access Control, and Biometric System Installation.
- ✓ Structured Cabling and Network Cable Crimping.
- ✓ ERP Coordination and SAP B-One Administration.
- ✓ Basic Linux Command Line Knowledge.
- ✓ NAS Deployment and Management for backup and user data access.
- ✓ Installation of high-temperature CCTV cameras in industrial environments.
- ✓ Installation and maintenance of warehouse CCTV systems.
- ✓ MS SQL Server 2008, 2014.
- ✓ MS Office 2019,2021, Office 365.
- ✓ Unifi Controller.
- ✓ AUTOCAD.
- ✓ Primavera.

TECHNICAL EXPERTISE:

Network Engineering & Administration

- **Hardware**: Installation, configuration, and troubleshooting of routers, switches, and firewalls for small to medium-sized enterprise networks.
- **Protocols & Services**: Management of core network services including DNS, DHCP, and File Servers.
- **Switching & Routing**: Configuration of VLANs, inter-VLAN routing, serial connections, and LAN switching to ensure efficient network segmentation and data flow.
- **Security**: Implementation of network security through the configuration of access-control lists (ACLs) Firewall Rules and Network Address Translation (NAT).
- **Cabling**: Proficient in structured cabling and performing advanced troubleshooting of physical network connectivity.

System Administration

- **Operating Systems**: Installation and administration of Windows Server editions (2003, 2008, 2012, 2019) and Windows client operating systems (7, 8, 10, 11).
- **Active Directory**: Setting up and managing Active Directory across multiple Windows Server versions (2003, 2008, 2019), including user and group administration.
- **Linux**: Foundational knowledge of basic Linux commands for system interaction and troubleshooting.
- **Hardware Management**: Advanced skills in building, configuring, and troubleshooting PC and server hardware.

Enterprise Applications & Systems

- **ERP**: Served as an ERP coordinator, assisting with system implementation and support.
- **Unified Communications**: Installation, configuration, and troubleshooting of iOT devices, IP phones.
- **Physical Security**: Installation of CCTV and Access Control Devices.

Specialized Hardware & Industrial Surveillance

- Proficient in the deployment of high-temperature and industrial-grade CCTV cameras in hazardous environments.
- Experienced in installing and configuring cameras in extreme heat environments like glass furnace areas.

Storage Solutions

- Deployed and managed NAS systems providing secure backups and accessible data storage through mobile apps and web interfaces, including user creation and permissions management.
