

ACADEMICS:

- ✓ **B.E in Computer Science Engineering, From A.I.T.M,** affiliated to VTU, Belgaum, recognized by AICTE, New Delhi.

PERSONAL STRENGTHS:

- ✓ Strong understanding of Latest Information Technology.
- ✓ Excellent communication skills.
- ✓ Team Player.
- ✓ Leadership Abilities.
- ✓ Adaptability.
- ✓ Project Coordination
- ✓ Able to work well with all levels of Management and staff.
- ✓ Organization.
- ✓ Proactive Learning.

PERSONAL INTERESTS:

- ✓ Reading History.
- ✓ Travelling.
- ✓ Listening to music.
- ✓ Solving Puzzles.
- ✓ Hiking.
- ✓ Badminton.
- ✓ Cricket.

MOHAMMED MUSIF

SENIOR IT ENGINEER | CLOUD, CYBERSECURITY & AI ENTHUSIAST

D.O.B: **02-06-1989** | **INDIAN** | Passport: **U0731471**

MARRIED | EMPLOYMENT VISA

HEADLINE:

Sr. IT Engineer with 10 years of expertise in U.A.E & Overall 14 years as IT Professional.

PROFESSIONAL SUMMARY:

Experienced Senior IT Engineer with 14+ years managing and optimizing complex IT infrastructures across industrial and office environments. Expert in Windows Server administration, Active Directory, network engineering, and industrial-grade hardware deployment. Proven track record of delivering secure, scalable systems and supporting enterprise applications, with a growing focus on Cloud, AI, and Cybersecurity solutions.

PROFESSIONAL EXPERIENCE

Designation : **Sr. IT Engineer & Asst to Admin Manager.**

Period : From **17th Mar 2016 to present.**

Organization: **MAPCO LLC – An MEP Contracting Co.**

JOB PROFILE:

Enterprise Networking & Advanced Infrastructure | L3

- Directed IT operations for 100+ office staff and 600 laborers across various project sites, ensuring high-speed connectivity and 99.9% system uptime.
- Managed and optimized enterprise routing; optimized network performance through segmentation and NAT.
- Specialized in the deployment of surveillance systems in extreme environments, including high-temperature glass furnace areas and large-scale warehouses.

Cybersecurity & Data Resilience | L3

- Orchestrated the deployment of endpoint security and engineered isolated backup vaults with 14-day immutable snapshots on NAS for total data protection.

System Administration & IT Governance | L2

- Managed company email domains and employee accounts, providing technical support for engineering applications (AutoCAD, Primavera) and overseeing hardware for desktops, servers, and office devices.

CERTIFICATIONS & TECHNICAL SKILLS:

- ✓ **Google AI – Pro Certificate.**
- ✓ **Google: Technical support fundamentals.**
- ✓ **Google: Foundations of Cybersecurity.**
- ✓ **Google: Play It Safe: Manage Security Risks.**
- ✓ **Google: Connect and Protect: Networks and Network Security.**
- ✓ **Google: Tools of the Trade: Linux and SQL.**
- ✓ **Google: Assets, Threats, and Vulnerabilities.**
- ✓ **Microsoft: Introduction to Computers.**
- ✓ **IBM Essential Technologies for Business – Pro Cert.**
- ✓ **IBM: AI for Everyone: Master the Basics.**
- ✓ **IBM: Introduction to Generative AI.**
- ✓ **IBM: Introduction to Prompt Engineering.**
- ✓ **IBM: Models and Platforms for Generative AI.**
- ✓ **IBM: Beginners Guide to Cybersecurity.**
- ✓ **IBM: Introduction to Cloud Computing.**
- ✓ **CCNA** (Cisco Certified Network Associate).
- ✓ **MCSE** course compltd.
- ✓ **AWSD16: AWS Cloud Technical Essentials.**

- Act as the primary liaison for the Admin Manager, leading ERP implementation coordination, software licensing audits, and managing the IT procurement budget.
- Administer the web-based biometric system across multiple sites for automated labor tracking.

Hardware Lifecycle & End-User Support | L1

- Managed the procurement, installation, and routine maintenance of high-end plotters, servers, and multifunction printers.
- Executed the on-site deployment of workstations, performed structured cabling for temporary site offices, and resolved daily user issues via Remote Desktop.

Designation : **System Administrator.**

Period : From **30th Oct 2012 to 12th Nov 2015.**

Organization: **SFJ Technologies Pvt.Ltd, Bangalore, India.**

JOB PROFILE:

Server Administration & Database Management | L2

- Managed a 150-user office network using enterprise hardware and policy environments.
- Successfully installed, configured, and maintained ERP environments and supported core database maintenance.
- Managed the installation and configuration of biometric attendance systems (eSSL) and linked them to the payroll database.

Network Operations & Hardware Support | L1

- Responsible for LAN/WAN troubleshooting, resolving internet outages, and maintaining voice and IP phone systems.
- Delivered hands-on hardware troubleshooting, performed routine maintenance on office PCs, and managed client OS software installations and updates.

Designation : **Network Support Engineer.**

Period : From **Feb 2011 to May 2012.**

Organization: **Safas Internetworking Technologies Pvt. Ltd, Bangalore, India.**

JOB PROFILE:

Core IT Services & Network Security | L2

- Configured and managed core IT services; implemented access control lists to enhance security.
- Administered DNS, DHCP, and File Servers to ensure reliable IP allocation and secure organizational data storage.

Network Deployment & Physical Infrastructure | L1

- Performed foundational installation and configuration of routers, switches, and firewalls for SMB clients.
- Executed structured cabling, network cable crimping, and physical infrastructure setups for new client deployments.

CORE SKILLS:

- ✓ Active Directory (AD) & Group Policy (GPO) Management.
- ✓ Windows Server Administration (2003, 2008, 2012, 2019).
- ✓ Windows Client OS Administration (7, 8, 10, 11).
- ✓ DNS, DHCP, and File Server Configuration.
- ✓ Router, Switch, and Firewall Management (Cisco, Dell SonicWALL, Unifi).
- ✓ VoIP and IP Phone System Administration.
- ✓ CCTV, Access Control, and Biometric System Installation.
- ✓ ERP Coordination and SAP B-One Administration.
- ✓ Basic Linux Command Line Knowledge.
- ✓ NAS Deployment and Management for backup and user data access.
- ✓ Installation of high-temperature CCTV cameras in industrial environments.
- ✓ MS SQL Server 2008, 2014.
- ✓ MS Office 2019, 2021, Office 365.
- ✓ Unifi Controller.
- ✓ AUTOCAD.
- ✓ Primavera.

TECHNICAL EXPERTISE:

Security & Strategy (Senior Focus) | L3

- **Advanced Networking:** CCNA Certified; Expert in secure VLAN segmentation, complex Firewall ACLs (Cisco, Dell SonicWALL, Unifi), and Site-to-Site VPN tunnels.
- **Cloud Automation:** Certified in AWS Technical Essentials for hybrid-cloud storage design.
- **Cybersecurity & Resilience:** Administration of Bitdefender Gravity Zone (EDR); Designing 3-2-1-1 Backup Strategies with Immutable Snapshots on Synology DS923+ NAS.
- **IT Governance & Strategic Planning:** Aligning IT operations with corporate objectives through ERP implementation coordination, comprehensive software licensing audits, and strategic management of the IT procurement budget.

Administration & Infrastructure (System Management) | L2

- **Server Operations:** Group Policy (GPO), DNS, DHCP, and File Server configuration.
- **Network Operations:** Management of Unifi Controller, Cisco Catalyst Switches, and Unifi Dream Machine Pro.
- **Database & ERP:** Maintenance of MS SQL Server (2008, 2014); SAP B-One Administration and ERP coordination.
- **Software Systems:** Technical support for AutoCAD, Primavera, and MS Office (2019, 2021, Office 365).

Operational Support & Field Engineering (Foundational) | L1

- **Hardware Lifecycle:** Building and troubleshooting PC hardware; maintenance of Plotters, Photocopiers, and MFPs.
- **Client OS & Apps:** Windows 7, 8, 10, 11; application software installation, repair, and Remote Desktop support.
- **Physical Infrastructure:** Structured Cabling, Network Cable Crimping, and installation of Access Control/Biometric systems (ZKTeco, eSSL).
- **Communications:** VoIP and IP Phone System administration;
- Basic Linux Command Line knowledge.

DECLARATION:

I hereby declare that the above information is true and correct to the best of my knowledge.
